PROFESSIONAL SUMMARY

Scrum Master with a strong frontend engineering background, applying the Scrum framework and servant leadership to lead cross-functional teams of 8-10 across SaaS, e-commerce, EdTech, and reporting products. Facilitates the full agile lifecycle, including sprint planning, backlog grooming, retrospectives, and stakeholder demos, while maintaining 85%+ sprint velocity. Technical foundation enables credible engagement in estimation, story refinement, and engineering discussions, driving faster blocker resolution and stronger team self-organization.

EXPERIENCE

Scrum Master

iSOFTSTUDIOS | 01/2024 – Present | Lahore, Pakistan

- **Sprint Planning & Delivery:** Facilitate all Scrum ceremonies, including sprint planning, daily standups, sprint reviews, and retrospectives, for a cross-functional team of 8-10 members, maintaining an average sprint velocity of 85%+ story point completion.
- **Backlog Management:** Partner with product owners to groom and prioritize backlogs of 100+ user stories, ensuring 2-week sprint readiness and reducing scope creep by 30%.
- **Impediment Removal:** Identify and resolve 15+ cross-team blockers per quarter, reducing average issue resolution time from 5 days to 2 days.
- **Agile Adoption:** Led the team's transition to Scrum from an ad-hoc workflow, resulting in a 40% improvement in on-time delivery rate within the first 6 months.
- **Stakeholder Communication:** Serve as the primary liaison between the development team and business stakeholders, conducting bi-weekly demo sessions and maintaining transparent project roadmaps.
- **Continuous Improvement:** Introduced retrospective action tracking that produces measurable process improvements each quarter, including automated testing integration and CI/CD pipeline setup.
- **Client-Facing Delivery:** Manage delivery of 3+ services-based client engagements alongside internal product work, aligning sprint goals with evolving client requirements and handling scope negotiations without disrupting the core team's rhythm.

Senior Frontend Developer

iSOFTSTUDIOS | 08/2021 – 01/2024 | Lahore, Pakistan

- **Team Leadership:** Mentored a team of 3-4 junior developers through weekly code reviews and pair programming, reducing average PR review cycles from 3 to 1.5 rounds.
- **Cross-Functional Collaboration:** Worked closely with designers, backend engineers, and product owners across 6+ projects to align delivery timelines and translate requirements into actionable tasks.
- **Delivery & Quality:** Architected and shipped production-grade frontend features across SaaS, e-commerce, and reporting products, maintaining zero critical post-launch bugs through structured QA.
- **Process Improvement:** Introduced a shared component library of 50+ reusable React.js components, cutting new feature development time by ~35% and reducing cross-team inconsistencies.

SKILLS

Agile & Scrum: Scrum Framework, Kanban, Sprint Planning, Backlog Grooming, Daily Standups, Sprint Reviews, Retrospectives, Velocity Tracking, Story Point Estimation

Agile Coaching: Servant Leadership, Team Facilitation, Impediment Removal, Conflict Resolution, Self-Organisation, Scrum Values, People Management

Stakeholder Mgmt: Roadmap Communication, Bi-weekly Demos, Risk Management, Expectation Setting

Technical (Frontend): React.js, Next.js, Vue.js, JavaScript, TypeScript, Node.js, REST APIs, MongoDB

Cloud & DevOps: AWS, Heroku, GitHub, CI/CD, Webpack

Tools: JIRA, Confluence, Trello, Git, Figma, VS Code

Soft Skills: Leadership, Coaching, Mentoring, Problem Solving, Communication, Collaboration

KEY PROJECTS

Guide Pointer | *React.js, Node.js, MongoDB, AWS*

Tour and travel booking application enabling users to discover destinations, book guides, and manage itineraries. Delivered the fully responsive frontend end-to-end with real-time availability features, and facilitated sprint ceremonies for a team of 6, maintaining a 90%+ sprint completion rate throughout delivery.

Master Mind | *Next.js, Redux, Node.js, Express.js*

Online course selling and purchasing platform supporting 500+ course listings. Architected the storefront, checkout flow, and student dashboard, and managed backlog grooming and sprint planning sessions that reduced scope creep by 25% across 8 sprints.

iReport | *Vue.js, Bootstrap, REST APIs, MongoDB*

Online reporting application for enterprise clients. Built an interactive report builder and data visualisation dashboard, reducing manual reporting time by approximately 60%, and ran retrospectives that introduced 2 process improvements adopted team-wide.

NyxionAI | *React.js, OpenAI API, Node.js, Tailwind CSS*

AI-powered email generation SaaS product. Delivered the email editor, prompt configuration panel, and export workflow while managing sprint velocity tracking and stakeholder demos, ensuring timely delivery of 3 major feature releases.

EDUCATION

B.Sc Computer Science

University of South Asia, Lahore | 2016 – 2020

ACHIEVEMENTS

- Ace Employee of the Year, iSOFTSTUDIOS (company-wide recognition for outstanding technical contribution)
- Employee of the Month, iSOFTSTUDIOS (awarded for consistent delivery and leadership)
- Shining Star Award, iSOFTSTUDIOS (recognised for cross-team collaboration and mentorship)
